

Kids Cuisine Class Series

Whether your child is interested in becoming a chef or just wants to cook cool food, this class is designed with the young chef in mind! Open to children between the ages of 4 and 18, this class is exciting and educational for everyone. Moms and Dads can drop off the kids and enjoy their own lunch and shopping in Lake Geneva..

In this “**hands-on class**”, kids will be able to learn the importance of proper nutrition while enjoying the freedom to create a well balanced meal. After everyone is done cooking, we will sit down for a family style lunch where the children will learn and discuss 12 Basic Table Manners for Kids. It’s a great way for children to make new friends and explore a new activity in a fun, controlled environment where we don’t mind a mess!
